DICTATING
MACHINE

The world's leading dictating machine for those who lead in business

Wouldn't it be a tremendous advantage if you could catch those bright ideas - for keeps - the moment they cross the mind? If you could faithfully record their details at the moment they come to you? If you could *immediately* dictate that urgent letter, whether you're in the office, at home, or while you are attending a business meeting? If you could free your mind - loaded with all those must-be-remembered details - for more productive and profitable thinking?

You'll realize what such a facility means to a hard-working executive, when you meet the Norelco 82. This versatile dictating machine is precision-built to solve these special needs of those who lead in business. It embodies the latest technical advances. Features, performance, ease of operation . . . you'll find them all in the Norelco 82 . . . perfectly matched with beautiful design.

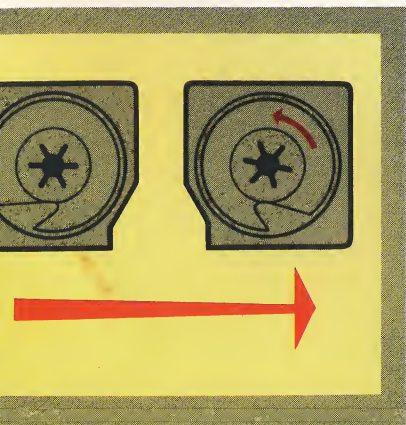

Actual size

One of the revolutionary technical developments of this superb machine is the Norelco 82 compact cassette . . . easier to handle, easier to mail. The tape is fully protected from dust and damage. Measuring only $2\frac{3}{4} \times 2\frac{3}{4}$ inches it holds 40 minutes of recorded letters, reports, instructions and discussions.

THE SMALLEST CASSETTE EVER

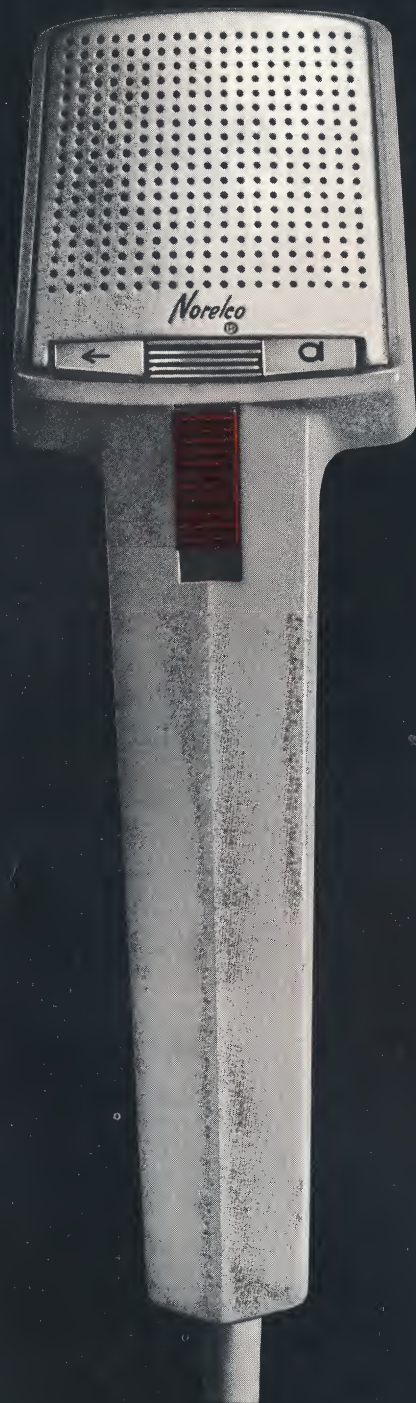

AUTOMATIC TAPE-THREADING

An ingenious system takes care of tape-threading. Just drop the cassettes on the spindles - they seat themselves in the right position - and press a lever. The tape is automatically threaded for you. There's no chance of error. In fact, you never have to touch the tape at all.

E A S E O F

FULL REMOTE CONTROL WITH NORELCO MICROPHONE/MONITOR

When you use the lightweight Microphone/Monitor you are in full control of the Norelco 82. With only three controls right under your thumb you can start or stop dictating, playback as little or as much as you desire, change words or phrases effortlessly. Automatic volume-control assures you of constant recording quality on a widely varying speaking distance.

- * *fully transistorized for instant operation*
- * *constant tape-speed for constant dictation quality*
- * *automatic stop at tape-end for all functions*
- * *warning buzzer 15 seconds before end of tape for convenient finishing of sentences*
- * *built-in 50/60 c/s conversion and voltage carrousel for use throughout the world*

Actual size

OPERATION

The Norelco 82 has a minimum number of controls, conveniently placed for fast, easy, accurate results. The Norelco 82 is simpler to use for every function you'll ever require of a modern, versatile, dictating/transcribing system.

Fast rewind

Conference recording
Fast erase

Telephone adaption

Fast forward

CONFERENCES

A written or oral report of a meeting normally consists of a concise summary of the results. Today, the Norelco 82 enables you to keep a complete record of all proceedings of carefully reasoned strategies, of all ideas and opinions. The built-in conference pre-amplifier always ensures top recording quality, and a conference loudspeaker allows you to play back to large numbers of people at any time.

TELEPHONE CONVERSATIONS

At the touch of a button, the Norelco 82 is ready to record both sides of telephone conversations. There's no longer any need to decipher scribbled notes and wonder exactly what was said. Intricate details and complicated problems are clearly and distinctly taken down on tape and can be played back again and again.

AUTOMATIC TIME-INDICATOR

During recording and playback, an indicator at the front of the 82 shows exactly how much time has elapsed from the start of operation. This allows you to mark more urgent jobs on the corresponding index strips, and enables your secretary to pinpoint individual items, even individual words, quickly and accurately.

The indicator is marked in minutes, from one to twenty, and a warning buzzer sounds 15 seconds before the end of tape is reached. *When you take out both cassettes the counter is automatically reset at zero.*

Norelco[®] 82

A TRUE
ASSISTANT
FOR YOUR
SECRETARY
AS WELL

- 1 The Norelco 82 gives your secretary more time to be your personal assistant, to grow in handling executive duties and to make her work more rewarding.
- 2 The featherlight ear-clip is comfortable to wear and the crystal-clear easy-on-the-ear voice reproduction makes transcribing a pleasure.
- 3 Time-wasting errors are a thing of the past. She can check your words as often as she wants, by just pressing a playback control. And the automatic time-counter allows her to pin-point even individual words.
- 4 She can get help when she is overworked. Because the 82 is so easy to use, *any* typist can transcribe dictation.
- 5 She'll no longer have to decipher your pencilled notes. Instead, she will keep things running by following your taped instructions.
- 6 Your secretary can plan a better working-day and avoid the last-minute rush.

IN EVERY
ORGANIZATION
THERE'S
A PLACE FOR
THE NORELCO

82

Norelco 82 is not just another office dictating machine. Because of its versatility it can be used in laboratories, hospitals, law chambers, universities, and in the home, as in the executive office. These illustrations show some of its uses: there are many, many more.

Because of their simple one-hand operation, Norelco Dictating Machines are used by many scientists for making accurate on-the-spot reports for later study.

Selling-organizations find Norelco Dictating Machines invaluable time-savers. Even the recorded salesman's reports are easily played back at monthly meetings for discussion by all concerned.

In travel bureaus, hotels and at exhibitions Norelco Dictating Machines are used to record questions that cannot immediately be answered. After rush-hours the tape is played back and all problems can be accurately dealt with.

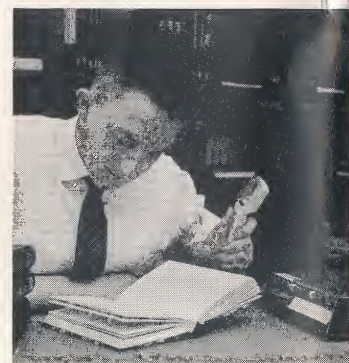

When collecting facts and figures you merely dictate them as you find them and the Norelco Dictating Machine keeps a perfect record.

The Norelco Dictating Machines are proving invaluable in hospitals. For example, they save much doctors' and nurses' time by speeding the recording of X-ray diagnosis.

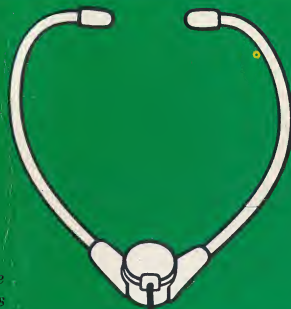

Lawyers, businessmen and after dinner speakers find Norelco Dictating Machines extremely helpful when preparing briefs and speeches.
